I remain your servant, yours truly
With, or turn away and I am so dumb
That I will always have the time to say

Just how much you are
Just how much you are
Just how much you are

Yes, I am your nothing but you are
Always my night and my day, even though
I'm falling, I believe I have the right to say

Just how much you are
Just how much you are
Just how much you are

I remain your servant, yours truly
With, or turn away and I am so dumb
Yes, I am your nothing but you are
Always my night and my day, even though
I'm falling, I believe I have the right to say

Just how much you are
Just how much you are
Just how much you are
