I remain your servant, yours truly  
With, or turn away and I am so dumb  
That I will always have the time to say

Just how much you are  
Just how much you are  
Just how much you are

Yes, I am your nothing but you are  
Always my night and my day, even though  
I'm falling, I believe I have the right to say

Just how much you are  
Just how much you are  
Just how much you are

I remain your servant, yours truly  
With, or turn away and I am so dumb  
Yes, I am your nothing but you are  
Always my night and my day, even though  
I'm falling, I believe I have the right to say

Just how much you are  
Just how much you are  
Just how much you are
