Told him I like the fire, he say he let the candle burn  
slow

I told him bring the kerosene, be here tomorrow  
He said he gonna stop when I do  
And I'm on wild cause I know my heart is blazing  
And he gonna whisper in my ear, I got you baby

And he gonna end up motherfucking going crazy  
And if you want me to I'll blow you down slow

And if my roof's on fire, don't worry now  
And if I run for me done boy take me down  
Run for them hills while I burn it down  
Run for them hills while I burn it down, burn it down

Boy I put you in my heart and then I bondage them soul  
We burn bonfire when I bondage them souls  
Brought, brought, brought me down  
When I bondange them souls  
Bon, bon, bondage them souls  
Put your arms around me, and never never ever let go  
We could write a story ever been this concrete  
And turn how we bondage your soul

And if my roof's on fire, don't worry now  
And if I run for me done boy take me down  
Run for them hills while I burn it down  
Run for them hills while I burn it down, burn it down

Boy I put you in my heart and then I bondage them soul  
We burn bonfire when I bondage them souls  
Brought, brought, brought me down  
When I bondange them souls  
Bon, bon, bondage them souls  
Put your arms around me, and never never ever let go  
We could write a story ever been this concrete  
And turn how we bondage your soul

While I put it all on me, I already know what I need  
Talk to me baby  
You gonna feel so free

I thought you shack up to me  
Something you wanna rock down, down  
If you wanna rock down, down,  
If you wanna rock down  
If you wanna rock down, down,  
If you wanna rock down

And if my roof's on fire, don't worry now  
And if I run for me done boy take me down  
Run for them hills while I burn it down  
Run for them hills while I burn it down, burn it down

Boy I put you in my heart and then I bondage them soul  
We burn bonfire when I bondage them souls  
Brought, brought, brought me down  
When I bondange them souls  
Bon, bon, bondage them souls  
Put your arms around me, and never never ever let go  
We could write a story ever been this concrete  
And turn how we bondage your soul.
