Can you believe this, ain't got no money  
Can you recieve this, shure is no funny  
I slave every day for the money, what more can I do  
The job that I have is no funny, but what would you do  
I've got bills over my ears, that I've got to pay  
There's gonna be a lot of tears, each and every day  
Can you believe this, ain't got no money  
Can you recieve this, shure is no funny  
I was warned by my father, before I moved out  
He says you should bother, tat is no doubt  
Now I know what it's trying to say, life is no game  
I've got so many depts to pay, I trouble my name  
Can you believe this, ain't got no money  
Can you recieve this, shure is no funny  
I slave every day for the money, what more can I do  
The job that I have is no funny, but what would you do  
Now I know what it's trying to say, life is no game  
I've got so many depts to pay, I trouble my name  
Can you believe this  
Can you believe this, can you believe this  
Can you believe this, can you believe this
