"Get You"

Gotto get you one day, anyhow, anyway
Running out of time
I watch you dance to the riddim (to the riddim)
Will you ever see, gotto get you
Deep brown eyes keep staring at me (staring tenderly)
I'm just one of a crowd, you've gotto get me girl
The way she looks is making me crazy
I need to touch her now, It's a matter of time
Crossing the floor, yes I'm the one
Soon I feel her close, a body next to mine
Chorus
Hand in hand, leaving the dancehall
I can imagine a scene, muscles of love
Spirits willing, my flesh is weak
Verbal promise made, I've gotto get you
Chorus
All the times I've been waiting In vain
A struggle ends up in a heavy rain, you see
I will never let you down, (out of time) I will never let
you down
A mislead mind in the name of randomness
Is it you or a goddess, you see I will never let you go
Chorus
