"Using The Word"

A man with the mask on a mountain
Holding the cross in his blood covered hands
Watching the symbol with respect
Praising the lord for victory

He led the troops into a battle
Battle of might, glory and trust
Under the flag of the goddess
Surrounded by lies... and greed

Killing a thousand years old culture
Taking away the dream
Wasting development
Disturbing the peace

Death sleeps on the fields
Blood stained scenes artificial believes
Using the word with the sword
No difference, no soul at all

Using the word means power
Using religion as a shield
Cleaning the scene from the unfit
By forcing them live for greed!
