Dream Of Me
The Kalin Twins

Dream of me every night.
Dream of me, oh my darling.
Dream of me just as I keep dreaming of you.

Though we're far (though we're far.) far apart (far
apart.)
If we dream, oh my darling (oh my darling .)
We can be (we can be..)
with each other all thru the night (all thru the night.)

I know it hurts to be so lonely but remember this my
love
You're still my one and only, you are all that I'm
thinking of.

So my dear every night dream of me and remember
Soon the dreams that we're dreaming will come thru
Very soon, my love, I'll be coming home to you

(Sax Interlude.)
So my dear. every night... dream of me and remember.

Soon the dreams that we're dreaming will come thru
Very soon my love I'll be coming home to you
