Thoughts of hope in the minds of those whose  
Lives are on decline  
A thousand lies told them with bright eyes  
And believed without doubts of employment  
Now it's time to think very positive  
Deny all the evil things  
Hah, right time to face this reality  
Take all the pain  
Coming with me - Bird of ill omen  
Living in me - Bird of ill omen  
Bird of ill omen  
Purity behind the mask of innocence  
Weakness of this world  
Blind-eyed fools will never rise from unfairness  
Until they'll join the Good!  
Coming with me - Bird of ill omen  
Living in me - Bird of ill omen  
Bird of ill omen

The carrier of the crown of thorns  
Hides behind a dollar smile  
And will judge the Poor!  
So let's throw away all our useless hope  
Nothing will ever change!  
Hah, right time to face this reality  
Take all the pain  
Coming with me - Bird of ill omen  
Living in me - Bird of ill omen  
Bird of ill omen
