"Doubtful About It All"

Visit "[Doubtful About It All](#)" on MotoLyrics.com

Things move when I'm not watching them
They have their own will
And I don't even feel insane
Because I know I'm ill
I know there is an eye and I'm under observation
I am a marked man got some information
Governments use millions for supervision
Global message interception
Satellite receivers of Echelon system
Carnivore technique for digital control
It is said that terror lives behind the wall of privacy
But what do the rights really mean in our society?
Finger prints, personal I.D, credit card, database
A paradox of privacy
Doubtful about it all
Doubtful about it all

Doubtful about it all
Doubtful about it all
Eyes of god, secret crimes, causality, reckoning day
A paradox of humanity
A paradox of humanity
Doubtful about it all
Doubtful about it all
Doubtful about it all
Doubtful about it all
