A man -highest in rank  
Always commands  
Obeys the will  
Of the mighty word

Wealth is all he wants to reach  
Don' t give a damn to our land

He cannot see what is happening in our world  
Our system falls by his hand  
Conqueror' s end

With toxic waste master creates  
Catastrophies that lead to the end

A biowar man never can win  
Technology his only reward

He cannot see what is happening in our world  
Our system falls by his hand  
Conqueror' s end

Twisted creation of mankind

He cannot see what is happening in our world  
Our system falls by his hand  
Conqueror' s end
