Life - testament of fathers  
Forces to fight against the dark side  
Mystery - still unsolved  
Controller of the panel inner body

Hear the voices from the side of unknown  
Leading body into temptation  
False prophets message behind the mask  
Breaking through the will, darker one to rule

Withering away  
Only way to be awake

Dispensation into the light  
Against the law, internal fight

Two minds destroying their cradle  
Suicidal action towards the end

Believer - the feeble natured  
Completely influenced by abuser  
Awareness - disturbed  
A matter of social needs

Suppression way to inner revolution  
Denial is the force  
Opens the lock of inner control  
The enemy will lose
