another trap that i feel for
several in the past
i'm sure there will always be more
nothing ever last
times dreams
problems i have
all alone
friends that i have
no matter where in the world you are
everything's the same
times lessons have taught me well
hardships and mishaps
will i find my role in life & will it ever last?
times dreams
problems i have
all alone
friends that i have
no matter where in the world you are
everything's the same
times dreams
we'll always have
