Money ain't the key to the door of my succes
I've got diamonds gold and pearls up to my head
I didn't have so many friends when I was just a little girl
My money's got them coming to me
A sport rolex cartier lamborghini and a porche
A hundred miles of speed in my song
And when I didn't have the money
I asked you for a ride
You said there were too many in your car

(R):Money ain't the secret key to the door of my succes
but I never wanna be poor again
When you got money that's not all
you can even break an fall
I'm the poor girl no one used to love
[Money Ain't The Key Lyrics On]
Money ain't the key...money ain't the key

Mama told me something that I have learned to know
In life you gotta make it on your own

I've got cheeks on my book and a family to trust
So good friends take a look at yourself
Money ain't the key to the door of my succes
I've got diamonds gold and pearls up to my head
I didn't have many friends when I was just a little girl
My money's got them coming to me

Oh money money money ...money ain't the key
money ain't the key

Mama told money's gonna to me
Mama told on your own

oh oh oh
