I missed the bus
My car broke down
I had to walk an hour to get to town
Ten o'clock - Already late
When nine at the movies
I'd planned to see my date

Somehow this moment in time
Ain't no friend of mine

Somedays they don't get any better
Somedays they seem to last forever
I try but I can't win
And get that kind of feeling
I wish I didn't wake up at all

Made up my mind
To call a friend
I'd lost my cellie so I went home again
Still got worse
And that's for sure
Trying to sleep when there's a party next door

Somehow this moment in time
Ain't no friend of mine

Somedays they don't get any better
Somedays they seem to last forever
I try but I can't win
And get that kind of feeling
I wish I didn't wake up at all

On a day like today
Wish I didn't wake up
I'm out of luck in every way
Wish I didn't wake up
This moment in time is no friend mine
When I can't wake
My dad would say
Wake up it's a beautiful day

Somedays they get no better
Somedays they last forever
Somedays don't wake up at all
Don't wanna wake on sundays

Somedays they don't get any better
Somedays they seem to last forever
I try but I can't win
And get that kind of feeling
I wish I didn't wake up

Somedays they don't get any better
Somedays they seem to last forever
I try but I can't win
And this kind of feeling
I wish I didn't wake up at all

I wish I didn't wake up at all

Wish I didn't wake up

This moment in time
Is no friend of mine
And I can't wait for dad to say... rise & shine
It's a beautiful day

Someday they get no better - Someday they last forever
Someday don't wanna wake up at all - Don't wanna wake
On someday Someday they don't get any better - Someday
They seem to last forever I try but I can't win - And
Get that kind of feeling I wish I didn't wake up

Someday they don't get any better
Someday they seem to last forever
I try but I can't win
And get that kind of feeling
I wish I didn't wake up at all
