Kalwi & Remi - Find You

Just wanna find you
wanna find you
I need your love to believe.

In prison of love, awful around you
In prison of love I can't find your way
In prison of love I can't escape this space
Every things seems better when it's liven into you

Just wanna find you,
wanna find you
I know your love is set me free
Just wanna find you,
wanna find you
I need your love to believe.

Set me free aaaaaa

In prison of love feel all around you
In prison for luck every single day
In prison for lifestyle feel this date
Every things seems better when I thinking about you

Just wanna to find you,
wanna find you
I need your love to believe
I need your love to believe

Just wanna find you,
wanna find you
I know your love is set me free
Just wanna find you
wanna find you
I need your love to believe

Set me free aaaaaa

Let me be aaaaaa
