Get down, get down  
Get down, get down  
Get down, get down  
Get down, get down

Lift every voice and sing  
Yeah, but we gon' lift every fist and swing  
So save the Negro spiritual  
It's 1992 and niggaz need a miracle

And no more song and dance  
Like we shall overcome, and ain't got a chance  
Y'all stuck on 'I have a dream'  
Need to put the picket sign down and get on the team

Stand up and do somethin'  
(Get down, get down)  
Stop beggin' for a meal, 'cause everything is real  
Nigga look at yourself, you in hell  
Claimin' welfare, or should I say fare-well

Mr. Christian, you was too spooky  
Now Bush wanna slave, and Russia wanna nuke me  
And the most you can tell me is love thy enemy?  
Stay off the Hennessey

Pops I want freedom, so hand me the nine  
(Get down, get down)  
You can pray for yours, but I'ma go get mine  
Now how long has it been?  
For a hundred and thirty-seven years, but neva again

Neva neva, neva again  
Neva neva, neva again  
Neva neva, neva again, neva again  
Neva neva, neva again

God bless America but for what?  
How 'bout God damn America, the slut, yeah  
Now I can name that tune  
'Cause the land of the free is sellin' Negroes at noon

But how soon we forget  
Mention the holocaust, niggaz have a fit  
Sorry it's real but I'm fresh out of tears  
'Cause lynch that nigga's still ringin' in my ears

I want freedom, justice, equality, Islam  
(Get down, get down)  
So it's hard to keep calm  
When I'm accused of bein' racist for lovin' my people  
first  
Now they wanna put me in a hearse

But black people never made white slaves  
And we was too lovin' to put Jews in a oven  
But the pilgrims wasn't so friendly then  
And by the way, I never ate a Indian

So who's the real savage?  
(Get down, get down)  
Six feet tall on the average  
Mark the number of the goddamn beast  
To the East my brother to the East say neva again

Neva neva, neva again  
Neva neva, neva again  
Neva neva, neva again  
Neva neva, neva again, neva again

Neva neva, neva again  
Neva neva, neva again  
Neva neva, neva again  
Neva neva, neva again, neva again

Oh, say can y'all see?  
It's the home of the slave, land of the never free  
America me, the so called Negro  
With another verse, so here we go

As long as y'all been givin' me hell  
(Get down, get down)  
No wonder there's a crack in the Liberty Bell  
To tell on America the beautiful  
The bitch need a face lift, for this race myth

And now for you to pull a caper, kidnap rape her  
The penalty is death  
'Cause we ain't forgave or forgot  
Blacks bein' murdered, tortured and shot

Six hundred million, one eighty sevens  
It's bringin' wrath down from the heavens

So let my people go Pharoahe, the arrow  
Is point at your dome, and if we don't make it home

Cancel Christmas

Like E P M D we got some unfinished business  
From way back, payback for your sin  
(Get down, get down)  
So paleskin', tell a friend, neva again

Neva neva, neva again  
(Get down, get down)  
Neva neva, neva again  
(Get down, get down)  
(Get down, get down)  
Neva neva, neva again, neva again  
(Get down, get down)

Neva neva, neva again  
(Get down, get down)  
Neva neva, neva again  
(Get down, get down)  
Neva neva, neva again  
(Get down, get down)  
Neva neva, neva again, neva again  
(Get down, get down)

Neva neva, neva again  
(Get down, get down)  
Neva neva, neva again, neva again  
(Get down, get down)

Neva neva, neva again, neva again  
(Get down, get down)  
Neva neva, neva again, neva again  
(Get down, get down)
