Like under siege  
Staying inside  
Out in the street  
The sun is hammering down  
Your sweaty body  
Drowsy smile  
We're lying low  
Until the heat dies down tonight  
We're going out  
Do us a favour,  
Forget him tonight  
We're out of sight  
Yeah, we're left to our own advice  
Dive in the water and leave it behind  
These nights are the kind that come never again  
The heat is on  
In these times  
The sweetest loving  
Is the worst of crimes  
Your sweaty body  
Drowsy smile  
We're lying low  
Until the heat dies down tonight  
We're going out  
Do us a favour,  
Forget him tonight  
We're out of sight  
Yeah, we're left to our own advice  
Dive in the water and leave it behind  
These nights are the kind that come never again  
Drowsy days  
Drowsy days  
Do us a favour,  
Forget him tonight  
We're out of sight  
Yeah, we're left to our own advice  
Dive in the water and leave it behind  
These nights are the kind that come never again
