Are you sure of what you've done?  
Are you sure of what you've left behind?  
Do you understand the pain,  
Do you understand the meaning of -  
You and me?  
Can't you see  
Why you're falling?  
Sleeptalking  
You said it in your sleep the night before,  
Said that we would never last forever  
I have heard it thousand times or more  
And it makes me feel like I have never felt before  
Is this how it's gonna end?  
Is this how the world will look to me?  
I cant believe the words you say,  
I cant believe that you're satisfied  
Cause I won't go,  
Until you know  
That I still love you  
Still want you  
You said it in your sleep the night before,  
Said that we would never last forever  
I have heard it thousand times or more  
And it makes me feel like I have never felt before  
Please change your mind we've still got time  
And realise the fact that I still love you,  
Still want you  
You said it in your sleep the night before,  
Said that we would never last forever  
I have heard it thousand times or more  
And it makes me feel like I have never felt before  
Never felt before  
Never felt before  
And it makes me feel like I have never felt before  
And it makes me feel like I have never felt before
