standing at the edge of solace
i'm all alone
echoes of your voice possess me
but you are gone
a winter sun crawls down toward evening
light breezes come
caress my face with vows of sleeping
but i am done

if just for a moment
you'd find me in these slums
i'd fly away with you

i don't want to bloom without you
i don't want to breathe without you
i don't want to be without you
i don't want to sleep without you
i don't want to laugh without you
i don't want to die without you
i don't want to love without you
i don't want to bloom without you
