Lie down beside me
Let's forget the day
Find some peace
Leave it all behind
Listen for voices
On the street outside
Signs of life
Might rescue me

So many dark days, distorted ways
A gradual wearing down
In a cold world, pain and sorrow swirled
On a canvas of war and hate

I need you
Don't leave me tonight
I'll steal you
Away from the other side

Feel the night pulsing
In a blanket of moonlight
This is hope
And this is where it's born
Oh I'll never leave you
You show me where heaven lies
Step inside
I've got a place to hide

When life feels too hard, nowhere to start
To fix all the cracks in these walls
We need each other to discover
And the time has come to move forward

Hear me, I'm still calling
Stay near me, I'm afraid of falling
