You sound bored to death
You really miss her eyes
Full of lies, Go to hell
You're doing well

I'm really sick of this
Disgusting dating shows
Noone knows
On the run, On to the fun

Midday reruns
She brought it up
No way to stop
Hit the wall
Forget it all

She's got you now
She's got you now
Think about taking a bow
Yeah, take a bow
If you feel better, If you feel strong
If you feel happy it's just synalgia

If you're in love, If you're above
I thought I told you, it's just synalgia

Might be bittersweet
But you're dismantled
Mental, You're gone
Already gone

Think about the trees
Think about the lake
It's not fake
It's too late
Never too late
