I don't wanna love you like a man
By being above you like a man
I don't wanna hurt you like a man
But that's what I am...
Don't wanna cheat and lie like a man
Hold it all inside like a man
Hide you behind a veil like a man
But that's what I am...
I don't wanna, I don't wanna be like them
Those other men
Whatever came before me, well that was then
I'll be better than, those other men
So I want you to cry like a woman
Take me on a ride like a woman
Use beauty as revenge like a woman does, with a man
I don't wanna, I don't wanna be like them
Those other men
Whatever came before me, well that was then
I'll be better than-
I don't wanna, I don't wanna be like them
Those other men
I'll be better than-
So don't become my beautiful friend
The one I don't go home with
When the night ends...
I don't wanna, I don't wanna be like them
Those other men
Whoever came before me, well that was then
I'll be better than-
I don't wanna, I don't wanna be like them
Those other men
Whatever came before me, well that was then
I'll be better than, those other men
Those other men, those other men, those other men...
