Chorus-

It gets...it gets easier

Without you

I won't feel right

Without you

But it gets...it gets easier

I was in misery without you

I could not imagine life without you

It was such a painful thing to go through

To have you being taken away

But I...I dried my tears

Even thought it took a couple of years

I guess I had to just let go of my fears

Of being alone...but it gets

-Chorus-

I thought my life was over without you

Thought I would be oh so sad darling

'Cuz you left me here, to face all my fears

All by myself with nobody else

Now that you're gone i just gotta move on

But my lovin's never changed

It'll always stay the same

I felt you were wrong

The lonely nights alone

I get weak then I'm strong

It gets easier

-Chorus-

Sometimes it's really to just let go

Don't feel like moving on...Oh yeah I know

Just breathing air is hard to bear

When the one that you love is not there

Thoughts of you get heavy on my mind

I always reminisce on our good times

I just take it day by day

I know that'll never be easy

But I can say it gets easier

-Chorus
