This song is dedicated to my brother
Patrick O'Dell Reilly

Ooh, oh, ooh
I was in misery without you
I could not imagine life without you
It was such a painful thing to go through
Have you been taken away?

But I, I dried my tears
Even though it took a couple of years
I guess I had to just get over my fears
Of bein' alone but it gets

It gets, it gets easier
Without you I won't feel right
I can't feel right without you
But it gets, it gets easier

It gets, it gets easier
Without you I won't feel right
I can't feel right without you
But it gets, it gets easier

I thought my life was over without you
Thought I would be oh so sad darlin'
'Cuz you left me here to face all my fears
All by myself with nobody else

Now that you're gone, I just gotta move on
But my love'll never change, it'll always stay the same
I felt you were gone, the lonely nights alone
I get weak then I'm strong, it gets easier

It gets, it gets easier
Without you I won't feel right
I can't feel right without you
But it gets, it gets easier

It gets, it gets easier
Without you I won't feel right
I can't feel right without you

But it gets, it gets easier

Sometimes it's really hard to just let go
Don't feel like movin' on, oh, yet I know
Just breathin' air is hard to bare
When the one that you love is not there

Thoughts of you sit heavy on my mind
I always reminisce on our good times
I just take it day by day, I know that'll never be easy
But I can say, it gets easier

It gets, it gets easier
Without you I won't feel right
I can't feel right without you
But it gets, it gets easier

It gets, it gets easier
Without you I won't feel right
I can't feel right without you
But it gets, it gets easier

It gets, it gets easier
Without you I won't feel right
I can't feel right without you
But it gets, it gets easier

It gets, it gets easier
Without you I won't feel right
I can't feel right without you
But it gets, it gets easier

Easier, so much easier
Yeah yeah yeah yeah yeah
