Rock me Lord
That's what I kept on saying not too long ago
It seems like I was living in the darkest hole
My sadness and my anger start to take control
I had a lot of stuffs weighing on me yâ'all
I she'd a lot of tears that you didn't see, no
But I couldn't let grief consume me
Cause I got a little girl depending on me

It came right forever
The sun's got to shine again
I remember that old saying
So I kept praying and you should do the same my fried

I stay prayed up that gets me by
That's how I made it thru my darkest times
Yeah I'm a sinner and that's no lie
Thank God my prayers are heard cuz he knows I try
Yeah I stay prayed up, yes I stay prayed up
See the only way I made it thru my pain is thru God's
favor

Rock me Lord
How am I supposed to raise these kids alone
I do the best I can to keep a happy home
It's hard to do it now, my better half is gone
Got a lot of eyes looking at me y'all
Judging every move that I'm making y'all
I'm just trying to do the best that I can
But it's hard cuz I'm just an ordinary man

You came waiting forever
The sun's gonna shine again
I remember that old saying
So I kept praying and you should do the same my fried

I stay prayed up that gets me by
That's how I made it thru my darkest times
Yeah I'm a sinner and that's no lie
Thank God my prayers are heard cuz he knows I try
Yeah I stay prayed up, yes I stay prayed up

You see the only way I made it thru is thru God's favor
See I stay prayed up, I stay prayed up
You see the only way I made it thru my pain is thru
God's favor

I stay prayed up that gets me by
That's how I made it thru my darkest times
Yeah I'm a sinner and that's no lie
Thank God my prayers are heard cuz he knows I try
Yeah I stay prayed up, yes I stay prayed up
Oh I made it thru because of God's favor
