What will it take for you to open up for me
patients wearing thin for your grinding
oh please am y you' re so pretty on the inside
this is all i want this is all i see
you dance around my dark desires
what would you do if i made the first move
my fantasy says you' ll let me do what i want to do
this is all i want this is all i see
give me your permission for what i need
slave
voodoo talkin
slave
fire walkin
slave
primal shakin
anything for you
slave
heavy breathin
slave
love the beatin
slave
always pleasin
i want to be your slave
is this something we both can agree upon
formalities in the way shame and so on
oh god am y don' t tease me with a little kiss
this is all you want this is all you need
i don' t need permission for what i see
