You say what you want if you feeling it  
Do what you want if you feeling it  
Are you feeling it  
You can be what you like if you feeling it  
You can be what you are if you deal whit it  
Are you feeling it  
We can do what we want if we feeling it  
We can do what we like if we feeling it  
Are you feeling it  
We can say what we feel if we feeling it  
We can say what we feel if we deal whit it  
Are you feeling it

I wish I could find a way,  
I wish I could find a way whit you  
I wish we could fare away  
Are you feeling it  
Yeah

You say what you want if you feeling it  
Do what you want if you feeling it,  
Are you feeling it  
We can taste what we want if we feeling it  
We can taste what we want if we deal whit it  
Are you feeling it

I wish I could find a way,  
I wish I could find a way whit you  
I wish we could fare away  
I would go anywhere whit you  
If I could, I will be miles away
