Maddy come speed your love to me  
With more strength than I'll ever need  
Baby take your time,  
We'll never get back in line  
Sing it

Memories stretched to a life ago  
Listen to your song on the radio  
Holding out my hand  
We never did understand  
But in your eyes, eyes, eyes  
I can see what's on your mind  
Again

Well if not so complicated  
and if not so self-assured  
And if not the life you wanted  
Well it never lets you go  
Oh if only you could see the light shine tonight

Don't let it pass you by, oh no  
Don't let it pass you by, oh no  
Pick yourself up from the ground  
Know you're time will come around  
Be strong

Maddy come speed your love to me  
With more strength then I'll ever need  
Got to take some time  
The future looks bright aligned  
And if you like

Hold on  
Oh if you stay for a while  
Maybe things will change  
Maybe just in time, time, time  
We'll see what's on your mind  
And slide away

Well if not so complicated  
And if not so self-assured

If not the life you wanted  
well it never lets you go  
Well if you only could see, see the light, see it shine  
tonight

Don't let it pass you by, oh no  
Don't let it pass you by, oh no  
Pick yourself up from the ground  
I know your time will come around  
Be strong, oooh

And sometimes  
To get up  
To find a new way  
It's never easy when there's no one to say  
That it's gonna be alright  
That everything is gonna be fine, fine, fine

And I say  
Get up  
Find a new day  
You will get there at the end of the way  
I know you'll get there at the end of the way

Don't let it pass you by, oh, no  
Don't let it pass you by, oh, no  
Pick yourself up from the ground  
Know you're time will come around  
be strong  
Yeah

Pick yourself up from the ground  
Know you're time will come around  
Be strong

Be strong
