"Go"

Hey, you make a minute go faster
Hey, what's that you do to yourself?
now hey, let's see the Mercury rise

like dancers with the flames,
we'll be dancing with the flames untill you go

and dance
you make a minute go faster
and hey, it's so much out of controll
now hey
I see the hurt in your smile
you're aching for the flame
we'll be dancing with the flames
untill you go on now
you go on now
you go with your arms around me
and going... and go...
with me

(hold on to me)
and dancing with the flames
we'll be dancing with the flames
untill you... go
