"High places"

Visit "[High places](#)" on MotoLyrics.com

Take me to high places
Show me new faces, sing it now
Take me to far borders
With the sky for us, sing it now

When the river starts to call
I'll go back, if I ever left at all
When the river starts to call
Take me back to the river

Looking for new saviours
What we lost breaks us, sing it now
Tell us 'bout true glory
Bring us new stories, sing it now

When the river starts to call
I'll go back, if I ever left at all
When the river starts to call
Take me back to the river

When the river starts to call
I'll go back, if I ever left at all
When the river starts to call
Take me back to the river

So take me to high places
Show me new faces, sing it now
Show me that new order
Under skies for us, sing it now

When the river starts to call
I'll go back, if I ever left at all
When the river starts to call
Take me back to the river

Take me to high places
Show me new faces, sing it now
Take me to far borders
There's a place for us, sing it now
