My hustle's still sick, set trip, bullets spin niggas flip

Hot slugs hit, that's it, rip that ass like some pump dick

Feel respect from my balls I don't pause for shit

I'm quick to empty my clip and hit the gas bitch

Drive by, four niggas thinkin like they the shit

Bye bye, Mr. Kane bring the pain like project brings to the brain

My game is worth more then my weight in cocain

Don't wanna get wet, but bitch don't go outside in the rain

No Limit, we get respect for chin chacks and teks

Mob connects, tryin to disrespect, save your breath

Cause I aint met a motherfucker who can do that yet

On the edge of death like we the last real niggas left
