Black in white White in Black  
That is why there's no respect,  
For the human race human faith  
I cannot see that's why I taste  
The she'd of tears it's crystal clear,  
I cannot face my morning fears  
I cannot eat I cannot sleep  
I cannot die that's why I live

Chorus

Trusting was a part of me  
But now it's gone to say the least  
Trusting was a part of you  
But now it's gone to wreck the view  
Anna wants to buy some time  
Anna wants to realize

Like the crow that wants to eat  
He'll find some time to make his peace

Verse

In the field out there  
In the open air  
Everybody lives in despair  
From the One from the least  
HE can't help you no can we  
So first you'll crawl then you'll fall  
When you try to climb that wall  
Believe in Him believe in me  
Your time is up and I am (near)

At least I can't do nothing but disagree  
At least I can't do nothing but disagree
