Y2JÂ...YOO, young jin That's the way
We came straight game wit it, straight off the chain wit
it,
Look but can't touch, we the illest true pimps of it.
Collaboration locked with military fusion,
Takin-ova- Da globe w/out any hesitation,
Envision total domination.
Taking circus out With, Sniper Scope precision.
So just back up back up, yo way up way up,
Or you'll get yoself smacked up! Like 2 Pac, we hit'em
up~!
Too cold to hold, yo we too hot to handle,
Ladies are you ready bout to hitcha wit dis scandal~

Clock strikes it's twelve O clock, Bodies movin dance
flo's hot
You shake it so dangerous, Girl your so dangerous
Looked straight in--to your eyes. Desire burning up my
mind
(It's you) You know want to don't be shy oh girl
Girl don't try to stop this flow. Back up on it nice and
slow
The stage is set so just let go... Baby girl don't say no

Move yo body! Don't think about no one else!
Groove to the music, let the rhythm take control.

Rock that body! You know how we party~ Yeah!
Just you and me, Pop! Let's get it Crunk tonight!

("Lets go")
I know what I know what I know I show,
By the time I finish you'll be scrnmng for more

Takin all the ladies with a single look.
Don't try to step, pistol whipped is how you'll end
Flippin the script I just dun dun it again
