Boys love girls

Girls love boys coz the boys that love girls
And girls love boys

Minds right mine is right
(sippin) a bottle or suttin
(bust mike) all night no one can tell me nuttin
Your girl so wat she (must of) talked to me
Not fair don't care you choose
Coz ur shoes say puma mine says prada
Speak with a sound boy, or would u rather
I could be sweet boy and meet your father
I could be sour and leave in a hour
But if sour is wat u like then that's still alright
I could be ur 1 nighter
Boys love girls but they don't trust girls
Any girl could be a two timer
I glad ur kinda sweet and ur not cheap and not that
cheatin type
But it's a shame i know the game and every girl's the
same

Boys love girls
Coz the girls that love boys
And boys love girls
Girls love boys coz the boys that love girls
And girls love boys
Boys love girls love boys
Boys love girls love boys

Boys love girls but don't ever say it
Coz you get trapped you get caught you get locked

down
We don't need this we need some freeness
Boys draw girls want more girls non stop now
She loves me she loves me not
She loves my beat
She loves to bop
She wants my doh
She loves to shop
Girls love boys
She likes me
Even if she can't have me she wants me
Girls have gotta be
Not lackin
Big bummin
Good lookin good luck if you're an ugly duckling
Pullin old birds and for the young birds
Girls all over evrywhere we go
Its essential to keep it confidential
Keep it on the down low no one has to know

Boys love girls
Coz the girls that love boys
And boys love girls
Girls love boys coz the boys that love girls
And girls love boys
Boys love girls love boys
Boys love girls love boys

Yo yo who can keep it like me
Who'll be pleased to leave u
Then be back with u
I can't buy u bling and things
But i can sing for u wat more can i do for u i'm tru to u
I'm tellin u that i mess up
But i'll clean up
When i make a mess of things
I've got feelings
Boys love girls love boys
But who can love me like u
Who keeps thinkin about me talking about me
Acts different around me
Can't stand girls around me she's jealous
Its all great then she keeps me waiting
She's spectatin i'll pay u today then
(im not payin)
Boys love girls love boys
Fix myself up so i look cool just right
Batty's not too low but a little low just right
Its cut if not hat's on just right
Bobbles on red stripe just right u
Fix urself up so u look good just right

Libby bag libby jeans
Too tight just right
Belly top so i can see ur belly
Wanna come and get me wun u gotta get me
And she's telling me
Don't think i'm easy
When i drew her so easy
Don't try leave me under don't tease me
Coz i don't belong what can go wrong
U no u wanna and u no i wanna too
U wanna do the things i wanna do
Drink til drunk and lick off and strip off
