So when I fly, you fly, we shine together
And when I shine you shine, we shine forever

Tell... looking pretty, I leave a wing... something silly
Yeah I kept mine, head blind like I'm drizzy
But you don't love... fuck shine like... diddy
As long as I got my... but they not like you
... my jacket when the...
Open the door from the inside...
I ain't spend money on the food...
This is no Cinderella, the... struck 12, still fly, no
feathers
Drop to the philosophy, my nigga told me,
Would you rather live like a queen now, or a princess
forever

So when I fly, you fly, we shine together
And when I shine you shine, we shine forever
So when I fly, you fly, we shine together
And when I shine you shine, we shine forever

Sugar cane, babe, give it... sweet
2 veggs yet give it at me
And when I say this I ain't talking about drinks
... base sex on the beach
And it's girls over guns
... bosses over bums
... call me neo, cause believe think I am the one
... text me in the morning, xxx me
And when I replay... spell check don't correct me
I fucking love you

So when I fly, you fly, we shine together
And when I shine you shine, we shine forever
So when I fly, you fly, we shine together
And when I shine you shine, we shine forever

When I fly, you fly, rap for the blue sky
... night fly... I'm a criminal...
Baby I'll give you my...
You know it's girls over guns though...

When they told me that you...
Hey lo, hey lo, I can see your...
Made me on a double date... able
Big stallion and I'm coming straight from the stable
Big man... place on the table
We living in a world full of sinners
But when I fly, you fly, baby you're my angel

So when I fly, you fly, we shine together
And when I shine you shine, we shine forever
So when I fly, you fly, we shine together
And when I shine you shine, we shine forever

Hey baby, don't stop it, by your side I will fly
... and the one you like I will find
I'll be soon... you'll be mine...
Let's fly together

So when I fly, you fly, we shine together
And when I shine you shine, we shine forever
So when I fly, you fly, we shine together
And when I shine you shine, we shine forever.
