Sing through the fire till the burning is over, is over  
Sing to recover till the healing is over, is over

Look I guess I ve been homesick  
I ve been on a road trip  
I ve been gone a long time  
Lately i ve been lonely  
They think that they know me  
They just know the old me  
Stronger than steel  
They can't shape me or mould me  
Higher than a dope fiend  
I'll be floatin over  
Over the game like Yoda  
Wiser and older  
Hip hop went from party to political to vulger  
Vulgar to soul-less  
Money's taking over  
So we did it over  
Whole new culture  
But it went from art to the heart now its broken  
Now we're picking up the pieces  
But the thing is when you love it you can't leave it cause  
you need it  
Patient cause i treat it  
Kind of like my treatment  
Musical therapy helps me with my healing  
When my heart feels heavy, or my tears they froze up  
I put on a 12" and sing til its over

Sing through the fire till the burning is over, is over  
SIng to recover till the healing is over, is over

Look dark days  
Hard times  
Heart ache  
Can't find  
Medicine for my pain gained on the front line

Battle scars  
Fight the power  
24/7

Jack Bauer  
Fairy tales  
Save the world  
Super heroes  
Kryptonite  
Devil on my shoulder  
Don't listen to the voices  
Infect you with their poison  
P p p poison  
Sing through the fire like Chaka Khan  
Rejoicing  
Girls sing, Boys sing  
Every body join in

Sing through the fire till the burning is over, is over  
Sing to recover till the healing is over, is over

This is my cure  
This is my remedy  
For your entertainment  
But this is my therapy

This is my cure  
This is my remedy  
My musicaltherapy

This is my cure  
This is my remedy  
For your entertainment  
But this is my therapy
