"CAN FLY"

I can fly I really can wave good-bye familiar land

Catch the wind make my climb breathin in born again
feelin fine

I can fly above distress I can fly to heaven no less

Leave the earth forget the time light as air I don't care
feelin fine

Don't say I'm crazy don't say I'm out of my head

I might be crazy but one thing's for certain one thing's
for sure

I can fly above the sea I can fly hey look at me

Without a net leave it behind

Feelin good feelin free feelin so fine

My lofty purchase high above I'm losing sight of you

I'm climbing up just like a kite the calm before the
storm

When all at once it dawned on me where I'm not
supposed to be

Clouds are black the sky is red I'm where the angles
fear to tread

I feel like I've lost my way

Down and down and down I go I've lost all sense of my
direction

This flaming spitfire flight has come undone

Grounding stages of rejection I am not worthy to have
even tried

Help me annihilate this foolish pride where Icarus died

I say the act of my contrition be sure to bless all before
I die

Save my seat in the smoking section cut me loose and
say good-bye

I wake up on the doctors table where life and death are
up for grabs

I'm comin I'm comin you better shoot me

Kill the pain and count the scabs no no no get out of my
black dream

Give me life give me life I'll make a vow

I'll resist temptation I promise here and now

You see it all started when I was younger they said I
was good

But I thought they said great

I crown myself the king of liars I am what I have learned
to hate
