Can you see me, do you know my position how quick is  
your eye?

I have no home, no reason to roam yet I travel the  
length of the sky

I stretch my fingers jagged icy white 'till my energy's  
all around

My clutch is swift, my force is fearful I convey it without  
a sound

I live to free the skies from everyone, watch me run -  
watch me

The north wind rises, old man's eyes wondering deeply  
as he locks his door

He knows the fear when I'm too near him, he's seen me  
angry before

The black intruding clouds approach as I release a  
destructive blow

All the crashing, all the flashing light brings terror upon  
my foe

I fight with force and power for my land

I command the lightning's hand!

Run for cover - Oh your life is in vain if you try to escape  
me

Don't look back - Oh your wealthy world cannot save  
you

'Cause I'm gonna break you

I hear them moan, I hear them weep because they feel I  
belong to the devil

They feel the pain, and will again 'till they stop  
reaching up for this level

No one will defeat me, no one can

I command the lightning's hand!
