You don't mind giving into temptation  
As long as no one knows  
Your midnight invitation where your madness flows  
Fires of passion rage all night  
Angels falling out of the light

Control undercover you can paralyze  
Every love is one more victim they never realize  
All their desires burn like a fever  
They want to run but they just can't leave her

Secret service, secret service  
Do they know how you scream?  
Secret service, passion, hunger  
Do they know how you scream?

I should have seen through her disguise  
She was a masquerade  
Cold kiss, empty eyes, she began to fade  
Feeling lost I want to be found  
Heaven's in hell, don't look down

Secret service, secret service  
Do they know how you scream?  
Secret service, passion, hunger

Do they hear you cry?  
Can they see your dreams?  
Have they heard you sigh?  
Or do you save it all for me  
In your secret service?

Secret service, secret service  
Do they know how you scream?  
Secret service, passion, hunger  
Do they know how you scream?

Secret service, secret service  
Do they know how you scream?  
Secret service, passion, hunger  
Do they know how you scream?
