I've got books that say the good man's golden  
And more that say the bad will fall  
So many men have drowned in evil  
And left Lucifer standing tall

Don't take the devil's dare  
Don't gamble when the game ain't fair  
Lock and bolt the doors  
Can't let the devil use you anymore

You got to listen all you mugs and revers  
If you do any wrong you make it right  
You can't be a make-believer  
'Cause soon you're gonna pay the price

Lying, hat and pain  
All part of the devil game  
Got his foot inside the door  
But you can't let him use you anymore

Take, he will take, he will take, give him nothing he'll  
take  
He will take, he will take, he will give nothing but he'll  
take  
He will take, he will take, give him nothing he'll take  
He will take, he will take, he will give nothing but he'll  
take

Pray, for devils have no reason  
Satan waits to curse your ways  
Have you seen it in his eyes in the sunset  
Have you wondered if he's laughing when you play

Has he asked if you're alone if what he sees is all you  
own  
Has he offered you happiness, money, or much better  
lays  
Satan leave me, leave me lonely  
Satan leave me, leave us alone

Satan leave me, leave me lonely

I've got books that say the good man's golden  
And more that say the bad will fall  
Take a look at what the future's holdin'  
Won't be yours if you don't heed this call

Life is a game  
And the stakes will remain the same  
Now you've gotta choose  
Is the devil gonna win or lose again
