(diamonds are forever.....they won't leave in the night  
have no fear that they might desertttt you)

Diamonds are forever (forever, forever) through you  
diamonds in the sky if you feelin the vibe diamonds are  
forever the rock still alive every time we ryme  
(forrreevver)  
Foreva eva eva eva eva eva eva eva eva eva eva evaaa

Close you eyes and imagin  
Feel the magic, vegas on acid  
Seein throught Yves St Laurant Glasses  
And ive relized that ive arrived 'cause it take more  
then a magazine to kill my vibe does...  
He right is own rymes?Ssort of i think 'em  
That don't mean i forgot better shit youve ever thought  
up  
Damn is he really that caught up?  
I ask if you talkin bout classics do my name get brought  
up?  
I remember I couldn't afford a Ford Escort or even a  
four-track recorder  
So it's only right that i let the top drop, on a drop-top  
Porche for yourself that's important  
If a strippa named Porcha and you get tips from many  
men  
Then your fat friend her nick name is, Minivan  
Excuse me,  
That's just a Henny,man, I smoke, I drink im suppose to  
stop I can't because

Diamonds are forever through your diamonds in the  
sky if your feeling the vibe diamonds are forever the  
rock is still alive every time i rhyme for ever , for ever  
ever ever eva eva eva eva eva eva eva eva eva evaaa.....

I was sick about awards  
Couldn't nobody cure me  
Only playa that got robbed but kept all his jury  
Alica Keys tryed to talk some sence in 'em  
30 minutes later seems there's no convicen 'em

What more could you ask for, the international  
asswhole  
Who complains about what he is owed?  
And through a tantrum like he is 3 years old  
You gotta love it through somebody still speaks from his  
soul  
And i wouldn't change by the change, or the game, or  
the fame, When he came in the game he made his own  
lane  
Now all i need is y'all to pronounce my name it's Kanye  
but some of my plastics still say Kane  
Got family in the D, Kin-Folk from Motown  
Back in the Chi, these folks aint from Motown life is  
movin to fast i need to slow down  
Girl aint no give me no ass i need to go down

Diamonds are forever (forever, forever)  
My father Ben said I need Jesus  
So he took me to church and let the water wash over  
my ceaser  
Diamonds are forever (forever, forever)  
The preacher said we need leaders  
Right then my body got still like a paraplegic

You know who to call you better best believe it The Roc  
stand tall like you would never believe it  
Take your diamonds through 'em up like you bulemic  
Ye da beats cold but the flows anemic  
After debris settles and the dust gets swept off  
Big K pick up, where young Hov left off  
Right when magazines wrote Kanye West off  
I dropped my new shit sound like the best of  
A&R's lookin like ptshh we mest up  
Grammy night damn right we got dressed up  
Bottle after bottle till we got mest up  
In the studio, where really though, yea he next up  
People askin, me if Im gon give my chain back  
That'll be the same day I give the game back  
You know the next question dog, "Yo where dame at?"  
This track the Indian dance to bring our reign back  
"what's up with you and Jay, man, are yall okay man?"  
They pray for the death of our dynasty like amen  
R-r-right here stands a-man  
With the power to make a diamond with his bare  
hands....

(course)
