[Kanye West]

There's only one girl on my agenda
(You talking bout Brenda?)
Naw I'm talking bout Linda, from last September
Now Linda love lace like Linda love lace
LaFace says she like +Mase+ but she love +Face+
And I know that Linda was a hip-hop-head
And I know that Linda gave Hip-Hop head
But I feel I could convert her
'cause I ain't here to hurt her mayn
And she was messin wit me when I was still at Burger
King
She ain't hop in my bed 'cause of the whips and cream
'cause when I had her in bed I had whip cream
Shakespearian midsummer night dream
I unzip things and pull out big things
They was flashin gr-green, she was like "ch-ching"
Got em, but she know a rreal nigga when she, spot
him
So now she's pickin dresses from Vera Wang
Scratchin out her maiden and here's my name
Now I'm sittin at the bar wit all my guys
They sayin "Cheers to you for your future years of
pain"
Like "Dog you ready to give all this shit up?
The summer's on it's way and these hoes doin sit-ups
And when they see the way the G-5 lights lit up
Your gonna wanna have two like John Ritter"
But naww, I bought her a brand new BM
He said "Dog, slow down like Brand Nubian now"

[Consequence]

I just feel the need to purge my soul from the word
"go"
Couldn't watch another nigga get burnt slow
She said her man was busy, always bored her with work
load
Never takes her out and falls asleep in his work clothes
She needs some excitement, which leads to this
indictment
Believe what you like kid, according to her

When we recorded with her, Linda changed her name
to Nicky
Sang along to Darlin Nicky, co-star of my quickies
That foot is so pretty, but I'm sure you recognize
That bra holds titties, those are her titties
Solar's so pretty, but not to rub it in
But that white Russian did make her lonely like the wind
So the over right that's in, on the over night depends
If you take heed the game, and please keep ya name,
word

[Kanye West]
'cause she's just a playa playa
That's playin games wit me

[John Legend]
I can't see myself getting out the game, no time soon
Ooooh, as I continue as I, Ooooh, as I continue as I
Oooh, Oooh
Can't see myself getting out the game, no time soon
Ooooh, as I continue as I, Ooooh, as I continue as I
Oooh, Oooh
