Song: whole life

[Verse 1]

Spit it till you say lil West's a little beast  
And make the middle west blow like the Middle East  
PEACE  
Peace, couldn't afford the S-Class  
So I had to cop the baby mama benz JEEP  
We'll put 50 I get this on the first take  
But that 50'll break the bank  
Back when my ATM was crazy slim  
Had a girl nickname sprewell 'cause when I tried to  
stop  
She still made me spend  
Back when Avies was in, my dog crazy kid had eighty  
of them  
It's time to hit the dance floor get crazy again  
And get that +CashMoney+ like Baby and Slim  
Pull up in something tinted, so tinted she squinted  
She said "This car real old"; I told her it was vintage  
And I need to hit the health club  
And get a girl that's into the fitness  
Tryin to get into the business, Imma make her my  
apprentice  
Make her open wide like she made me her dentist  
And let me get insiiide

[Chorus]

Now I been hustling my whole life  
Tryin to get this money up and I think I finally got it  
right  
And I been polly'n with this one girl that claim "I gotta  
work tomorrow"  
But tonight's the night, so poor another glass of that  
good stuff  
A couple more shots and I'll be doin fine

[Verse 2]

Spit it till you say lil West's a little beast

And make the middle west blow like the Middle East  
PEACE  
Please, what I gotta win 5 Grammy's before you finally  
let me play Alicia's Keys  
If I can't bone, I get a clone, get her there, got her  
there, grab her hair  
She vibin, don't stop her there, told me that she love  
the Roc so much  
She drove all the way to far Rockaway, for a Rocawear  
More populaire, 'cause I abracadabra'd my Nissan  
To a car throwin the peace sign, PEACE  
Damn that's like the same line I used in the first verse  
But w-w-w-wait it gets worse  
I told her S-U-C-K, before we F-U-C-K  
I give a F-U-C-K if your nephew's CK  
In a CL like U-C-K, that's how you know chickens C-L-U-  
C-K  
Im tryna find a crazy fe-male wit a cutee face  
I big pimp her on the the D.L. like UGK  
And then I told her

[Chorus]
