On lonley nights I start to fade  
On lonley nights I start to fade  
Her loves a thousand miles away  
Her loves a thousand miles away

Memories made in the coldest winter  
Goodbye my friend  
Will I ever love again?  
Memories made in the coldest winter

It's four am and I can't sleep  
It's four am and I can't sleep  
Her love is all that I can see  
Her love is all that I can see

Memories made in the coldest winter  
Goodbye my friend  
Will I ever love again?  
Memories made in the coldest winter, winter, winter  
[Coldest Winter Lyrics On ]  
Goodbye my friend  
Will I ever love again?  
Goodbye my friend  
Will I ever love again?  
Goodbye my friend  
Will I ever love again?

If spring can take the snow away  
If spring can take the snow away  
Can it melt away all our mistakes  
Can it melt away all our mistakes

Memories made in the coldest winter  
Goodbye my friend  
I won't ever love again, never again
