[Intro]

Yo, this that shit
Just to let niggas know
You can't fuck with us

[Hook]

But I don't even wanna hit on you, don't wanna know his
name
Sit down nigga, I know the game
Clothes shopper, I know the game
Take it and put it back into the store
Crazy cat, ah
And I don't wanna hear all those excuses, they all the
same
We should both be ashamed

Got me talkin bout love, you mean forever
You mean me falling in love, talking never
She's missing me after this one chick got together
She told me she had a man but they not together
Let me tell you how I first met her
It's kinda ill though
I'm downtown tryna find Anita
That's where I find this diva stand in front the hospital
I double park the car, scream, yo man's not with you
As for the cigarettes just brought the convo what went
on
I man up and eat, her belly holdin on
And as far as she say
Oh that was over, he say she say
So you telling me your man stayed up in micro weeds,
Mistaken identity like Cochise and I'm finna be
Holla at you now, know we'll talk later
And I wanna get up but you got flavor
Now I'ma let you get the cell, let you get the pager
And if you ain't around no haters you can call me later

[Hook]

But I don't even wanna hit on you, don't wanna know his
name
I know the game

I know the game
I know the game
Y'all know the game
And I don't wanna hear all those excuses, they all the
same
We should both be ashamed
Cause we know the game

She must've known where the dollars at
Cause it ain't taken long at all but need to holla back
Gave me directions to the crib, told me follow that
And I could park in back where the Impala at
But she ain't stayed on the southside, south southside
Deeper than the know when
Now I'm questioning whether I should get in that
Plus lasting a lot, walk into the door, haters asking a lot
And where you from nigga? You ain't from round here
As I peeped out the window said baby I'm right here
He mad cause I'm with her and he ain't with her
And he stayed down the hallway and he can't get er
So when I came out the nigga hatin on me was waitin
on me
And he had mo guys, no lie
Man I knew we were both wrong, bitch but I know
nothing
Finna wear both chains but I know nothing

[Hook]
But I don't even wanna hit on you, don't wanna know his
name
I know the game, I know the game
And I don't wanna hear all those excuses, they all the
same
We should both be ashamed
Cause we know the game.
