[Kanye West]

There's only one girl on my agenda  
(You talking bout Brenda?)  
Naw I'm talking bout Linda, from last September  
Now Linda love lace like Linda love lace  
LaFace says she like +Mase+ but she love +Face+  
And I know that Linda was a hip-hop-head  
And I know that Linda gave Hip-Hop head  
But I feel I could convert her  
'cause I ain't here to hurt her mayn  
And she was messin wit me when I was still at Burger  
King  
She ain't hop in my bed 'cause of the whips and cream  
'cause when I had her in bed I had whip cream  
Shakespearian midsummer night dream  
I unzip things and pull out big things  
They was flashin gr-green, she was like "ch-ching"  
Got em, but she know a rreal nigga when she, spot  
him  
So now she's pickin dresses from Vera Wang  
Scratchin out her maiden and here's my name  
Now I'm sittin at the bar wit all my guys  
They sayin "Cheers to you for your future years of  
pain"  
Like "Dog you ready to give all this shit up?  
The summer's on its way and these hoes doin sit-ups  
And when they see the way the G-5 lights lit up  
Your gonna wanna have two like John Ritter"  
But naww, I bought her a brand new BM  
He said "Dog, slow down like Brand Nubian now"

[Consequence]

I just feel the need to purge my soul from the word  
"go"  
Couldn't watch another nigga get burnt slow

She said her man was busy, always bored her with work  
load  
Never takes her out and falls asleep in his work clothes  
She needs some excitement, which leads to this  
indictment  
Believe what you like kid, according to her

When we recorded with her, Linda changed her name  
to Nicky  
Sang along to Darlin Nicky, co-star of my quickies  
That foot is so pretty, but I'm sure you recognize  
That bra holds titties, those are her titties  
Solar's so pretty, but not to rub it in  
But that white Russian did make her lonely like the wind  
So the over right that's in, on the over night depends  
If you take heed the game, and please keep ya name,  
word

[Kanye West]  
'cause she's just a playa playa  
That's playin games wit me

[John Legend]  
I can't see myself getting out the game, no time soon  
Ooooh, as I continue as I, Ooooh, as I continue as I  
Oooh, Oooh  
Can't see myself getting out the game, no time soon  
Ooooh, as I continue as I, Ooooh, as I continue as I  
Oooh, Oooh
