Come on, come on, come on, come on  
Come on girl, let's go

Hey baby am I crazy or was you giving me the eye?  
You said maybe, well you crazy because I know I'm too  
fly  
Already know I'm too fly, already know I'm too fly  
Already know I'm too fly, yeah I know what you like

Right now I'm off the wine, wine  
We can take our time, time  
So much I want to fronts  
Feel the bump when we grind

My uh in is your body, my uh is in your mind  
Check my dictionary that ass is so divine  
It slippery when it's wet girl, I can read the signs  
I knocked and I knocked uh, can I come inside?  
I knocked and I knocked girl, can I come inside?

I feel like it's home when I'm in between your thighs  
It's the joy and the pain and the bites and the brain  
What make it feel so good that type of stuff you can't  
explain  
I do what I do to do to make it rain

You got the invite tonight and I'm so glad you came  
'Cause you the type that danger we gain in yo  
Mic check like the way I begin my show  
Girl I come from Chica so 'n' I go  
Turn around, it's about to be a TKO

Hey baby, am I crazy or was you giving me the eye?  
You said maybe? Well you crazy because I know I'm too  
fly  
Already know I'm too fly, already know I'm too fly  
Already know I'm too fly, yeah I know what you like

Some call me Com, Com, some call me The Red, Red  
You can call me daddy, I'ma put you to bed  
An appetite for seduction and it gotta be fed

The sexual eruption got you hitting your head

On the board and knock and screaming, oh Lord  
We exchange like students 'cause I study abroad  
And listen to your body and low key party  
And I keep pushing and pushing, you 'bout to volley  
em' up

We the type to make lovin' and we up  
We take a ride down south 'cause you need to re-up  
Girl you call me Big Bank like I was saving it up  
I'm the doctor, I can hold it till my patience is up

I make, I make, I make you hot baby  
I know, I know, I know your spot baby  
When we do it like we don't want it to end  
It's 3 P.M., we gon' do it again

Hey baby, am I crazy or was you giving me the eye?  
You said maybe? Well you crazy because I know I'm too  
fly  
Already know I'm too fly, already know I'm too fly  
Already know I'm too fly, yeah I know what you like

Come on girl, let's go to distant lands unknown  
We can fly on air if love is everywhere for you and me  
Come on girl, let's go to distant lands unknown  
We can fly on air if love is everywhere for you and me

Hey baby am I crazy or was you giving me the eye?  
You said maybe? Well you crazy because I know I'm too  
fly  
Already know I'm too fly, already know I'm too fly  
Already know I'm too fly, yeah I know what you like

Come on girl, let's go to distant lands unknown  
We can fly on air if love is everywhere for you and me  
Come on girl, let's go to distant lands unknown  
We can fly on air if love is everywhere for you and me
