Well, I've been moving in a new direction
Don't you know that something's gonna change
I've been infected by God's injection
Now I don't say the things I used to say, 'cause

Now I'm changed
I'm not the same
and now I'm moving in God's direction
and I feel good about that

chorus
It makes me wanna
jump up
spin around
get up
get down
Don't you know I do it night and day, yeah
jump up
spin around
get up
get down
oh, yeah

Well, I've been looking from a new perspective
my eyes are open now
what can I say?
and now I'm walking with a new objective
ever since the day that Jesus saved me

'Cause now I'm changed
I'm not the same
and now I'm moving in God's direction
and I feel good about that

It makes me wanna
jump up
spin around
get up
get down
Don't you know I do it night and day, yeah
jump up
spin around

get up
get down
oh, yeah

Your spirit's moving me to be effective
and not just lay around and waste away
Lord, I'm glad that you were resurrected
and not still laying down there in that grave

'Cause now I'm changed
I'm not the same
and now I'm moving in God's direction
and I feel good about that

It makes me wanna
jump up
spin around
get up
get down
Don't you know I do it night and day, yeah
jump up
spin around
get up
get down
oh, yeah

It makes me wanna
jump up
spin around
get up
get down
Don't you know I do it night and day, yeah
jump up
spin around
get up
get down
oh, yeah

He never changed
He stayed the same
So get moving in God's direction
and you'll feel good about that
