I took a hiatus came back and became the greatest.
But I love you more than the deal that I signed with
Clive Davis. Leona your persona I can't stop thinking
Bout. But your beauty got me suicidal Sean Kingston'd
Out. I'm bout to leave but I really think I should
Think it out, before I set her free and take the Abraham
Lincoln route. Cause I think that she should be by
My side till the day that I die and they bring the
Hearse and the Lincoln's out.

3 weeks 4 days and the hours keep passing,
By like a train with my brain steady asking.
Did I do the right thing? Listen to my feelings.
Am I on the right page? Or am I mistaken?

I'm caught up in the maze.
I've been shopping like a mad woman spending all my
Money, but I can't get over this. I think I'm about to
suffer a relapse.

(Play your position girl)
You already know
(You be tripping girl)
So why don't you let me go?
(Cause I'm real fair)
But you're playing with my love
(Then why you still here?) There's nowhere left to go
(Play your position girl)
You already know
(You be tripping girl)
So why don't you let me go?
(Cause I'm real fair)
But you're playing with my love,
(Then why you still here?) There's nowhere left to go.

We did we fell so far
Like two kids
Do we even have a connection
Besides our affection
For an expression of love in side the bedroom.

I'm caught up in the maze.
I've been shopping like a mad woman spending all my
Money, but I can't get over this. I think I'm about to
suffer a relapse.

(Play your position girl)
You already know
(You be tripping girl)
So why don't you let me go?
(Cause I'm real fair)
But you're playing with my love
(Then why you still here?) There's nowhere left to go
(Play your position girl)
You already know
(You be tripping girl)
So why don't you let me go?
(Cause I'm real fair)
But you're playing with my love,
(Then why you still here?) There's nowhere left to go.

And I can't help myself I keep falling for you all over
again
It's like every time I'm out the door
I'm right back in your arms all over again
I'm saying yes, I'm saying no, I'm telling you you gotta
go
And then I wind up still here, staying all over
Loving', missing', wishing' you were here all over again
Pick up the phone and call your number
Are you home? can I come over?
Oh why do we be like this
I'll call it off with nothing but static
And weigh it off like nothing happened
Oh why do we be like this.

(Play your position girl)
You already know
(You be tripping girl)
So why don't you let me go?
(Cause I'm real fair)
But you're playing with my love
(Then why you still here?) There's nowhere left to go
(Play your position girl)
You already know
(You be tripping girl)
So why don't you let me go?
(Cause I'm real fair)
But you're playing with my love,
(Then why you still here?) There's nowhere left to go.

(Play your position girl)

You already know
(You be tripping girl)
So why don't you let me go?
(Cause I'm real fair)
But you're playing with my love
(Then why you still here?) There's nowhere left to go
(Play your position girl)
You already know
(You be tripping girl)
So why don't you let me go?
(Cause I'm real fair)
But you're playing with my love,
(Then why you still here?) There's nowhere left to go.
