{My blood pressures building
My blood pressures building
My blood pressures building}

{Justin, Justin what this? Who's this?}

{This is Cassidy}

{Man, he's talkin' about guns, talkin' about drugs
Callin' girls whores, bitches
Is this what you want to listen to?}

{Yeah}

{What's so positive about it?}

{Well he has some positive songs
But this is my favorite song?}

{Why, what makes it so positive?
I mean, what makes it so you know interesting?}

{The beat and the rhymes and everything else}

{I need you to really focus on your school work
Man not listen to this?
This is not reallycool, ain't good for you
It could corrupt you, your gonna go to jail}

{Wait! No I'm not, it's just music
Its crazy music too
But I'm not gonna go to jail}

{Well, I don't wanna hear no more of this Cassidy CD
Until I hear something that has substance, some
positivity
And some real talk okay
Thats the end of it, I don't wanna hear it no more}

{Alright dad, whatever you say}
